PRESS RELEASE

AAIT/Technocraft Returns to SAIA 2026 with Expanded Capabilities, Broader Product Portfolio, and a Stronger National Presence

Houston, Texas | July 2026

AAIT/Technocraft is proud to announce its participation to the SAIA Annual Convention & Exposition 2026, taking place July 28–30 at the JW Marriott in Nashville, Tennessee, where the company will welcome contractors, distributors, and industry professionals at Booth 407.

Recognized as one of the industry's premier events, SAIA brings together the leading manufacturers, suppliers, rental companies, and contractors driving innovation in scaffolding, shoring, forming, and access solutions. For AAIT/Technocraft, the convention represents an invaluable opportunity to strengthen relationships with customers, understand evolving market needs, and showcase the investments the company has made to better serve the industry.

“SAIA is where meaningful conversations happen. It is an opportunity to reconnect with our customers, introduce new capabilities, and demonstrate how we have continued investing in inventory, logistics, technology, and people to support their projects more effectively than ever before.”

— Eduard Castillo, President, AAIT/Technocraft

Since our last participation, visitors to Booth 407 will discover:

- Completely redesigned website featuring more than 1,000 products, project galleries, industry news, and direct access to regional experts.
- Expanded team providing stronger technical, sales, and customer support.
- Enhanced West Coast coverage with improved logistics and regional service.
- Expanded product portfolio offering more scaffolding, shoring, forming, and access solutions.

With four strategically located distribution centers across the United States and Brazil, AAIT/Technocraft continues to reinforce its commitment to inventory availability, responsive service, and dependable project support.

Attendees are invited to visit Booth 407 to meet the team, explore the new website, learn about the expanded product portfolio, and discuss upcoming projects with AAIT experts.

As construction activity continues to grow across North America, AAIT/Technocraft remains committed to helping contractors build safely, efficiently, and on schedule through reliable products, knowledgeable support, and long-term partnerships.
